## SUPREME COUNCIL DECIDES AGAINST TROOP MOVEMENT

BRITISH AND ITALIANS VOTE DOWN REINFORCEMENTS PLAN.

Plebiscite Area Virtually Bisectioned by New Line; Equitable Vote Urged.

(By Associated Press.)  
Paris.—Premier Briand of France and Premier Lloyd George of England have decided at a private meeting, on a compromise partition of Upper Silesia, it was declared here Tuesday on good authority.

The compromise boundary line is understood to have been drawn approximately as follows:

Beginning west of Pless on the Vistula river and running west of Gliwice, west of Tost and Gross-Strehlitz north to between Rosenberg and Kreuzberg and thence to the frontier of northern Upper Silesia.

This line, while by no means a straight one, approximately bisects the Silesian plebiscite area.

The reported agreement must be formally ratified by the supreme council.

Won't Send Forces.  
It was on the private settlement being reached, it is understood, that the council decided not to send reinforcements to Upper Silesia.

The division of the plebiscite area into two parts, one to be governed by France and the other by England, was the subject of the discussion.

Mr. Lloyd George took occasion to declare the position of the British government upon what he called the menacing problem to the peace of Europe.

Mr. Lloyd George, he said, had been to the council for 700 years, but for 177 years to Prussia and the British government would consent to any division not based equitably upon the wishes of the people.

Discussing the future security of France, the British premier said, he sympathized with the French desire for safety, knowing what France had suffered in two wars.

However, he declared, ought to rest on the consideration with which the victors used their power and upon equity in apportioning Silesia.

The British empire, the premier declared, could never enter into another war caused by the oppression of a weaker people.

## Slayer's Exultation Changes to Anxiety

Miss Olivia M. P. Stone, photographed on way to jail, and Ellis Guy Kinkadee.

Now York.—Miss Olivia M. P. Stone, the Cincinnati nurse who is alleged by the police to have shot and killed Ellis Guy Kinkadee, former corporation counsel of Cincinnati, has exhibited a change of attitude in her cell in Brooklyn, and showed signs for the first time of a full realization of her alleged act.

The exultation which she displayed when informed that Kinkadee was dead was gone.

Kinkadee's widow, Mrs. Marie Louise Gormley Kinkadee, was the one to take her to the morgue.

From the undertaker's shop on Sunday to a train for burial in Cincinnati. For the first time she expressed bitterness against Miss Stone and is said to have made a demand for vengeance.

Miss Stone's defense has not yet been definitely decided, according to her own statement.

She insisted it was Kinkadee who had hounded her and not she who had hounded Kinkadee.

Why, he took the bread out of my mouth, even going to the nurses' registry in Cincinnati and having me dismissed.

INQUEST DELAYED

Evanston Man and Woman in "Triangle" Held by Los Angeles Authorities.

(By Associated Press.)  
Los Angeles.—Search for the shotgun with which John Belton Kennedy was killed near the summer cottage in Beverly Glen, Friday night, was pressed vigorously Tuesday by county authorities as the most important clue in the case.

The search for the gun is being pushed among pawn shops and stores here and along the railroad right of way to Los Vegas, Nev., where Arthur Courtenay Burch, of Evanston, Ill., was arrested and brought here for questioning.

Both Burch and Mrs. Madeline Obenchain, former wife of a Chicago attorney, who was with Kennedy the night he was slain, have refused to answer any further questions of authorities.

Burch is formally booked on "suspicion of murder," while Mrs. Obenchain is detained as a witness.

Gun Vital Clue.  
County officials assert the gun found near the Beverly Glen cottage will prove the most important clue in the case.

Burch has admitted, county officials declare, that the automobile parked near the Kennedy summer house the night of the shooting had been hired by him.

The garage owner who rented it to him identified Burch, after the car had been traced through the peculiar tracks of a man and woman, who followed Mrs. John D. Kennedy, mother of the slain brother, through the streets to her husband's office last night.

In the case on whom officials are concentrating their attention, Mrs. Obenchain has stated that immediately after the shot was fired, which killed Kennedy, two persons, which she said were Mrs. Obenchain and a man, were in the car.

Descriptions of the two given by Mrs. Kennedy do not fit any one so far as known.

## Success Crowns City's Big Fair on Opening Day

With success indicating the setting of new records, the Janesville fair and livestock exposition opened Tuesday, celebrating the 60th anniversary of the establishment of a fair in this city.

Janesville and Rock county this year have a real fair with all phases and details complete.

The wealth of Rock county, richest in agriculture, with her blooded livestock, pedigreed seeds, prize farm produce, coming from the harvest fields is being displayed.

Never was there such a livestock exposition in Southern Wisconsin. Better animals are not found at the state fairs, for prize winners here will take the blue ribbons at Milwaukee.

Even the stock pens of the big fair grounds buildings proved inadequate to meet the unexpected number of exhibits. Breeders from all sections have entered. Entry records in cattle, swine, poultry, have been smashed. Tents were rushed in to house the cattle, horses and swine.

Excitement at Grounds.  
Bright and early the fair grounds became a jolly carnival, a show place, a riot of noise, color, all typical of the American fair.

In the stock pens the animals were being bathed, polished, manured, couched to look their best. Horses and hogs were scraped and polished with sandstone. The bodies sleeked with oil and combing, with others giving the bluebonnets their last dressing.

Further up the race horses were in their glory. The Janesville track—Lexington of the North—is in the spotlight again.

Weather Ideal.  
Ideal weather conditions made the attendance unusually good for the first day. One thing is noticeable and that is the cleanliness of the fair. Being one of the first of the season, arrangements were complete for the grounds, with sufficient deputies to guard and care for the traffic.

Track Is Fast.  
From end to end the fair grounds is packed with the best of fair attractions. Out on the track the fast horses are stepping off the satisfaction of the all birds and the spectators. The track is lightning fast, hard and smooth.

Down at the stable, the nervous and impatient horses were being prepared for the heats. Two blacksmith shops were working at full tilt to shoe the racers. Drivers argued and contested for rights to exhibit their prize. Carriage blanketed, swathed in bandages, the trim horses added much to the scene for the races are the climax of the fair.

Midway Is Bright.  
Then there is carnival row. Packed together in two streets there is tent after tent. Barkers are all in their glory, snapping, shouting, and yelling wares from milk and cream, to the most famous red lemonade for drinks, the famous lemonade for drinks, the famous lemonade for drinks.

There are kiddy rides, balloons, shooting stands, feris wheels, whirling dervishes and what not.

A gay row of neon, car, enticement are spread under canvas. It is a babble of yells—a chorus of calls.

The throngs pass along carnival row, to stop, laugh, and then to pack the grandstand, ray with flags and bunting, to watch the races.

Swiss Exhibit Rich.  
Judging which starts Wednesday will be no easy matter. Cattle will be judged Wednesday and hogs Thursday.

In the swine department the following breeds exhibit which were posted by Tuesday noon: The Berkshire, and son, Springfield, Wis.; Yorkshire, William Scheib, Lyons, Wis.; Chester, William C. Culver, James Little, Janesville, D. A. Whitmore, Lyons, Berkshire, Walter George, Evansville, Chester, Walter G. H. Arnold, Harry Danley, John Waldman, Janesville, and son, Evansville, Duroc, Jersey.

There were two full car loads of stock sent from Walworth county, including an unusually good display of Chester Whites.

W. H. Hager, E. W. Little, Janesville, Swiss Brothers, Footville, J. D. Little, Clarence Croft, J. A. Craig, Trauman Davidson, E. G. Clarke, Harry Danley, Janesville, and son, Evansville, Duroc, Jersey.

"Investor" the 300 pound Duroc boar of J. J. McCann and one owned by E. J. Clarke, for prize, both weighing near 300 pound mark.

One of the features of the cattle exhibit are Holsteins shown by J. A. Craig, John Goldthorn, John Fisher, J. W. Jones, Joseph Fisher, John Wagoner, Janesville, short horns by J. H. Wright, C. E. Culver, J. J. McCann, John Lathers, James Caldwell, and D. P. Marquette, all of Janesville, and from Janesville, near shown by Marjorie Kellogg, Dr. Wayne Nisbet, Richard Center, James Egan, W. H. Hager, and son, Evansville, and that is all there is to it—you have got to set off the grounds before you put your foot on the bandwagon.

Thus far there is none of the notorious dancing or peeping, shows along carnival row, and the fair officials say that none will be tolerated.

## NEW TEACHERS ARE HIRED FOR 1921-22

Transportation of Pupils from Blackhawk Addition Is Sought.

Several new teachers were engaged, transportation of children to Jefferson and Webster schools was considered. The Souman house on the high school site was sold and the date for the opening of school was set for Sept. 6, by the board of education in monthly meeting Monday night at the high school. Only day night at the high school. Only day night at the high school. Only day night at the high school.

Miss Pauline Cullen, who resigned the position of Miss Enright, was engaged by Mrs. Dorothy Schaefer, Milwaukee, a graduate of the University of Wisconsin. Her salary will be \$1,500. O. O. Wheeler, a teacher with 25 years' experience in wood-working and who taught last year in the Beloit high school, will join the Janesville high school staff at a salary of \$2,100, taking the place of J. V. Verbeke, who has resigned to go to Peoria, Ill.

Vancor, Washington; Leo Braun, Douglas; William Deering Jr., Webster; John Byrne, Garfield; George Barrett, Jefferson; Robert Knicker, Jackson; John McCue, Michael McCue and George Farlow, high school.

Saving on Repairs  
E. J. Craig was allowed \$150 for supervising creation of the new high school building and repair work in the city school this summer. Board members expressed themselves well pleased with the repair work done and declared that a saving had been made by proper supervision. A petition was read from a resident of the Blackhawk addition asking for transportation for school children of that vicinity to the Jefferson school, a mile distant. The letter was referred to St. P. O. Holt. It is planned to let a contract for the transportation of these children and those who will attend the "opportunity class" at the Webster school at the same time.

Miss Margaret Joyce, a teacher in the Jefferson school, was engaged to teach the "opportunity room" at the Webster school which has been organized for special pupils under the direction of Mrs. Fred E. Sutherland and Dr. Woods, Madison. There is \$300 of state funds available for equipment.

2,000 For House  
The Souman house on the corner of Main and Racine streets on the new high school, site was sold to John P. Cullen and Son for \$1,000. Several of the contractors bidding for the high school contract wanted to be paid for taking it away. The Cullen company plans to use the house as an office. The other two houses on the property, which are now occupied are only bringing \$15 per month rental. The houses take up desirable storage space for materials, so it was decided to refer the matter to new high school building committee to offer for sale if deemed advisable.

It was agreed that each teacher would be allowed 10 days' absence on full pay during the year, provided that absence was due to personal illness, illness in immediate family or to attend funeral of relative. Substitute teachers will be allowed \$6 a day for high schools and \$5 for grades. Substitute teachers have been paid in the past at the same salary as regular teachers.

Swim Until Sept. 6  
Life guards will be at the beaches it is planned until Sept. 6, providing warm weather prevails. Playground equipment will probably remain at the beginning of the school term as was suggested by Mrs. Sutherland. It is planned to have a teacher supervise the grounds during recess. ## FURTHER DECREASE IN TAXES SOUGHT

50 Percent Cut in Transportation Levies Held Practical Certainty.

Washington.—Having agreed to elimination of the soda fountain, ice cream and so-called luxury taxes on wearing apparel and a 5 per cent cut in the levy on sporting goods, republican members of the house ways and means committee, returned Tuesday to the job of revenue revision, resolved to make further reductions in the total tax the American people will be called upon to pay this fiscal year.

Out in Transit Tax.  
A 50 per cent cut in the transportation levies, both passengers and freight, was declared practically a certainty. Those members who have before have urged immediate repeal of all of these taxes were understood to be prepared to press their point with the argument that this could be done readily if repeal of the excess profits and higher surtaxes is delayed until next Jan. 1, as now proposed.

The total loss of revenue involved in cutting off the transportation taxes was estimated at \$26,000,000 or less, it was claimed, than the loss that would be entailed this year through making the repeal of the excess profits and higher income and Mrs. Powles entertained Monday night in honor of Mr. and Mrs. Fred Hatfield and daughter, Miss Hazel Hatfield, who will leave soon for their new home in California.

Mr. and Mrs. Edward Smith returned Saturday night from a trip in the northern part of the state.

## Must Add Two Fire Escapes at High School

Under orders from the industrial commission which made a thorough inspection of the high school building here, fire escapes leading from this assembly room must be put in at once. The board of education, meeting Monday night, having no alternative referred the matter to the building committee, with power to

act. W. H. Blair, architect, presented a sketch of the work as it must be done under the order of the commission.

The work, it is estimated, will cost between \$500 and \$700. There is no fire escape leading from the assembly room to the ground. Commissioners expressed surprise when this was brought out and wondered that one had not been installed several years ago.

On account of the crowded conditions of the high school the commission requires the erection of two fire escapes, one leading from the third floor to the ground and the other from the second floor.

The fire escape leading from the second floor was condemned because pupils would have to go through a window to reach it.

Under orders from the industrial commission which made a thorough inspection of the high school building here, fire escapes leading from this assembly room must be put in at once. The board of education, meeting Monday night, having no alternative referred the matter to the building committee, with power to

act. W. H. Blair, architect, presented a sketch of the work as it must be done under the order of the commission.

The work, it is estimated, will cost between \$500 and \$700. There is no fire escape leading from the assembly room to the ground. Commissioners expressed surprise when this was brought out and wondered that one had not been installed several years ago.

On account of the crowded conditions of the high school the commission requires the erection of two fire escapes, one leading from the third floor to the ground and the other from the second floor.

The fire escape leading from the second floor was condemned because pupils would have to go through a window to reach it.

PUSH SEARCH FOR GUN USED IN MURDER (Continued from page 1.)

far mentioned in connection with the mystery, authorities say.

During the inquiry Monday, an inquest over the body of Kennedy was to be held Tuesday afternoon.

Deputy Sheriff Nolan said he did not anticipate any difficulty in securing an indictment against Burch.

"Of the indictment of Mrs. Oberchain," he said, "I am not so sure."

During the inquiry Monday, Burch admitted, according to Nolan, that he had sat in a hotel across a downtown street from Kennedy's office watching Kennedy for ten days before the slaying. He had been absent from his room when it occurred, and had left for his home in Evanston, the following morning.

Certain discrepancies in Burch's statements compared with those made by Mrs. Oberchain had not been cleared up Tuesday. One of these was the statement that he had come to Janesville at the request of Mrs. Oberchain who, he is said to have told the deputy sheriff, wired for him. She had declared she had not sent for him.

Officers denied also, according to Burch, that she had ever visited Kennedy's office. Burch told officers that she had visited him, wearing a colored wig and together they had watched Kennedy.

Ludington, Mich.—Mrs. Allie Quayle Burch, the daughter of Bishop William A. Quayle, of Sturgeon Bay, Wis., died Tuesday.

Strangely, Mrs. Burch, who had been estranged from her husband, Arthur C. Burch, in a statement Tuesday said she believed her husband innocent of any connection with the murder of J. B. Kennedy, in Los Angeles last Friday.

Mrs. Burch is spending the summer at the summer cottage of her parents here. She seemed sure there had been no love affair between Burch and Mrs. Oberchain. According to Mrs. Burch, she filed suit for divorce in Lawrence county, Kansas, against her husband over a year ago, charging desertion, extreme cruelty and neglect.

Mrs. Burch said she did not know Mr. and Mrs. Oberchain or Kennedy and had never heard Burch mention them.

# Janesville's Greatest Harness Races Start on Tuesday

## TWO RACE OPEN MEET ATTENDED BY MANY WINNERS

With whips cracking, hoofs pounding, sulks piling and crowds in high spirits in fully bedecked stands, harness racing came back to the Lexington for another sensational season in a blaze of glory. With winners from tracks all over the central west and northwest competing, predictions are that the season will be the best yet. It has been held here for more than a decade.

The last of the steeds arrived Monday. All Monday afternoon and Tuesday morning the drivers were tuning up to get accustomed to the speed of the track.

Two Races Tuesday.

Beautiful weather, which the prophets claim will stay for the entire season, has given the circuits—half mile and mile—an exceptionally high speed value. Wetting of the dust for the past two nights has packed the courses into a perfect surface.

The biggest races will be held on Wednesday and Thursday. However, those entered for Tuesday promise some real exhibitions. At the track, the drivers were tuning up to get accustomed to the speed of the track.

YES AN' THERE MY LEADER-SHIP ENDED.

YOU WUZ A HANDSOME LAD, BUT VERY DASHFUL.

I WUZ THAT. I REMEMBER IN MY EXCITEMENT I GAVE THE MINISTER FIVE DOLLARS. I INTENDED TO GIVE HIM FIFTY. IT WORRIED ME FOR A LONG TIME. I WANTED TO GIVE IT TO HIM.

DID YOU EVER SEND IT TO HIM?

NO. I SOON STOPPED WORRYIN'.

AN' NOW I WISH I HADN'T GIVEN HIM THE FIVE.

## Western Open Golf Tourney at Chi Aug. 24-26

Chicago—Entries for the open championship of the Western Golf association, to be held at the Oakwood club, Cleveland, on Aug. 24, 25 and 26, thus far received by Secretary W. W. Harless indicate that the usual large field of expert golfers will contend for the title held by Jack Hutchinson, now British open champion. Apparently a consistent list of players is those who lost the title to James Barnes at Washington last month.

While the Oakwood club is among the most famous in the world, it is a severe test of golf and has a turf that will reward good shots and hazards that will punish bad strokes. Hutchinson, who has not been at the top of his game since he won the British title with a fine score, is improving, and will do his best to retain the honor, which he won at Olympia Fields, Chicago, for the first time last year when he came to the club to play at the time of his victory.

Three Day Meet.

The play this year will be arranged to cover only three days, the qualifying efforts of the first two days at 18 holes each comprising half of the 72 hole score for the championship. The entire field will play 18 holes on Wednesday, Aug. 24, and repeat the performance the next day. Then the 64 low scorers and lies for 54th place will continue in the contest on Friday, playing 18 holes to complete the scores for the 72 holes.

While this precludes the chance to become familiar with the course in elimination rounds before the championship play, it does give the players a week previous to the tournament for practice. Entries will close August 13.

The title, which has been contested since 1898, has been won but once by a local player, although the national open title has gone outside of the professional ranks several times.

How Evans Stained.

Chick Evans has won the national amateur championship twice, the national open once and the western amateur crown six times, won the western open in 1914, the national open in 1915, the western open, which has been at stake play from George Simpson, first brought Evans into national prominence, as he was then only 33 years old and had secured in 1915 the prize of the country's best professional at a time when the amateurs were not the peers of the professionals of that era.

The record score for the event is 28 strokes, made by Evans at Westmoreland club, Chicago, in 1917 and duplicated by him in 1919 in winning at Mayfield club, Cleveland, while record score for the national open is 28 strokes, made by Evans at Minneapolis club, Minneapolis, in 1916.

His of History.

The winners of the title by years follow: Willie Smith, Chicago; 1900, not held; 1901, Lawrence Auchterlone, Chicago; 1902, Willie Anderson, Pittsburgh, Mass.; 1903, Alex Smith, New York; 1904, Willie Anderson; 1905, Arthur Smith, Columbus, Ohio; 1906, Alex Smith; 1907, Robert Simpson, Omaha; 1908, Willie Anderson; 1909, Willie Anderson; 1910, Willie Anderson; 1911, Willie Anderson; 1912, MacDonald Smith, Del Monte, Calif.; 1913, John McDermott, Atlantic City; 1914, James Barnes, New York; 1915, Tom McNamee, New York; 1916, Walter Hagen, New York; 1917, James Barnes; 1918, not held; 1919, James Barnes; 1920, Jock Hutchinson, Chicago.

In addition to the title going to amateur players 10 times out of the 20, nine eastern professionals have been runner-up, so that the contest has been about evenly divided nationally.

## SUCCESS CROWNS CITY'S BIG FAIR

(Continued from Page 1.)

harn is twin calves in a Holstein exhibit. Housed in a tent near the floral building, A. B. West, Janesville teacher, has charge of the produce exhibit of the youngsters.

On the road to the track there are a dozen tents housing automobile and implement displays. Tractors are operating all types of farm machinery, with two Janesville manufacturing companies having large demonstrations. Robert Buege has an immense tent for the Ford product.

The Samson is showing its "bridal tractor" white with gold in the Bower City. The Townsend company is showing the various models of its tractor. A number of the amusement machines are being run with tractor power.

**Auto Show Popular.** Inside the track there are two tents for the auto show with more than 150 cars being displayed. In the educational hall there are good exhibits from the merchants and schools. The county and city nurses are holding a demonstration of health work, measuring and weighing youngsters.

Over in Floral hall is where one's mouth waters. The best from the kitchens and home ovens is being displayed. Great cakes with white and chocolate frostings are there to delight the eye and tease the appetite.

Other sections there are the art and fancy work displays, painted china, flowers. The building is worth any one's time and is of special interest to women.

**Plan Night Fair.** Arrangements are complete for the holding of the fair Tuesday night and evenings until Friday. Electric lights have been installed in all the buildings, along carnival row and at the stock buildings, which were tried out and found to be a complete success.

"We are hoping for a big attendance at night," said Secretary Harry Newlan. "The exhibits warrant attendance at night for every one is worth seeing and better than any previous fair in the county."

**County Wealthy in Stock.** But down at the north end of the grounds is Rock county, or, at least what the county represents. The county may be proud of its livestock. There may be an industrial slump but Rock county with her wealth of cattle, her fat hogs and prize sheep does not show evidence of tight finances. Rock county has the majority of the exhibits.

It was a busy scene Tuesday morning as new pens were being erected under tents for the entries still poured in and sought show space. There were 1,000 pound boars, big Holsteins and short horns, the milked and stock Jerseys, the spotted Ayrshires and bulky Durhams.

**Boys' and Girls' Exhibit.** Over in another building is one of the features of the fair. There are the exhibits of the boys' and girls' county clubs. County Agent J. T. Glasco is in charge and the showing is a credit.

The largest exhibit is from the pig club and the youngsters have Poland, Duroc, Jersey and Chester

The boys and girls take an active interest. They are immensely proud of their exhibits and care for them with the same attention as do the more experienced but not more enthusiastic breeders.

**Hoyt Has Display.** Underneath the grand stand there is the largest collection of poultry ever shown in the county. So large were the exhibits it was necessary to move out the farm produce display.

Here it is a chorus of peeps, crows from the lucky rooster, chickens, hawks, from the haughty gander, to the chief of the tiny and fancy bantams. There is a big exhibit of W. A. Hoyt, Whiteaker, of many fowls and animals. Among chickens there are the Speckled Sussex, Plymouth Rocks, from 25¢, pheasants, pigeons and rabbits.

Horses are being shown by Samuel Walcott, Beloit; A. J. Barliss, W. Austin, C. E. Cliver and John Huggins, Janesville.

Sheep are entered in the judging by the score with a few pens of goats.

**PLAN SPECIAL DAYS AT ALL PLAYGROUNDS**

A program of special days for children of the playgrounds was announced Tuesday by Director E. S. Lamoreaux. It is designed to give greater interest to those attending the grounds. The program follows: Wednesday, Aug. 10—Dress up parade. Photos will be taken. Thursday, Aug. 11—Doll club or party day. Friday, Aug. 12—Circus parade. Children to decorate small wagons and carts and wear clown suits. This will also be pet animal day. Saturday, Aug. 13—Soap bubble day. Goats. Sunday, Aug. 14—Indian day. Children to wear Indian feathers and costumes.

**PLAYGROUNDS CLOSE FOR "JANESVILLE DAY"**

So that the directors of the playgrounds and benches may attend the fair on Janesville day, Wednesday, the school playgrounds will close at noon and the benches will be closed all day. E. S. Lamoreaux, playground director announces.

Dr. Leigh Woodworth, city sanitary inspector looked over the lunch tents during the day. "It is the cleanest fair I ever saw," said the inspector.

In one tent there was cigar and in another work displays, painted china, flowers. The building is worth any one's time and is of special interest to women.

"Hot dogs" and hamburgers still continue to be the big fair favorites.

The grand stand was thoroughly cleaned for the race throngs.

Plain clothes men are on the job seeking to protect fair patrons from pick-pockets. At one or two previous fairs the "dips" made a cleaning. "Don't show a wallet," warn the detectives. "Once a thief knows where your purse is—the rest is easy."

Pickpockets generally operate in gangs of two or three, one to attract the victim's attention or to assist against him, the second to lift the purse and pass it to the third, who quickly disappears.

"The best collection of race horses at any county or city fair," say the wise ones at the stables. "With that track we are due for some time and good races."

### TO RENEW EFFORTS TO RAISE MONEY FOR MUSIC FUND

Greater efforts to boost the community music fund to finance free public concerts by the Bower City band will be made by the committee in charge following a meeting held at the Chamber of Commerce Monday night. From discussion held, it was given out that free concerts can be continued only if the public properly and generously supports the band with contributions. The city council voted \$500 for the band Monday night.

Sales of pop at the concerts will be pushed with more vigor as a means of raising money. A committee consisting of Alderman W. W. Menzies and F. L. Bennett will complete canvassing the factories for funds. Another pavement dance will be held soon.

## WHAT IS BEHIND DELAY IN PEACE?

Negotiations With Germany  
Arouse Curiosity of Con-  
gress As to Treaty.

Copyright 1921, by Janesville Gazette.

Washington—More than a month has passed since congress by joint resolution tried to declare a state of peace with Germany, but for reasons which have thus far been clouded in secrecy neither a proclamation of peace has been issued nor has the American public been told officially by the department of state or the white house what the American commission in Berlin and the German government are talking about.

The senate foreign relations committee has not been given a draft of memorandum new German government, though it is known the German reichstag committee has for weeks had the same under consideration.

It was in the senate that the Wilson administration met its Waterloo. The making of peace, and republican senators have been wont to say that the policy of secret diplomacy was repudiated at the polls last November. That is why there is a growing impatience over the extreme secrecy of the present negotiations with Germany.

Not Giving Anything Out. Secretary Hughes, who usually discusses foreign policy frankly and in much more detail than any of his predecessors, has declined repeatedly to say anything about the conversations or negotiations going on with the German government. The state department has, on the other hand, insisted that most of the public reports are seriously untrue.

The Wilson administration used to argue that international custom and international politics made it necessary to negotiate privately, but the Harding administration is keeping the negotiations within the realm of secret diplomacy because of domestic politics—a fear of certain elements in the United States senate which might attempt to criticize the proposals if made public.

Send Treaty to Senate. Indeed, the department of state gives every evidence of intending to follow the Wilson footsteps by negotiating a treaty with Germany and then sending it to the senate, which will be urged to adopt it without qualification. The chances are the senate will have to take the treaty without the casting of a "yea" or the dotting of an "i".

The Democrats are not particularly disturbed over that prospect, for they defended it under the Wilson administration, but the elements in the senate which denounced the Wilson methods as unjustified are showing signs of restiveness over the fact that open diplomacy has again gone by the board. Their chief fear is that Secretary Hughes is establishing a precedent for the Harding administration which will be used to keep the press out of the disarmament conference and give-out formal statements similar to the colorful announcements made daily at Paris while the real agreements and negotiations were kept secret, and are still being handed the public in piecemeal.

fashion in books by those delegates who participated in the peace conference.

A Peace Proclamation. But if the mystery over the conduct of the negotiations with Germany is unexplained, it is no less a mystery to capital hill than the reason why a peace proclamation isn't issued. Congress expected that peace would be established by joint resolution. The state department didn't seem to think a proclamation was necessary, but some suggestion was made that wartime legislation could be abrogated only by a proclamation. So the matter was referred to the department of justice where it has been for several weeks. The spectacle of Secretary of State Hughes, with experience on the supreme bench of the United States, being required to await an opinion from a few lawyers at the department of justice is one that has given rise to all sorts of rumors and gossip. Mr. Hughes, it is contended, knows whether a proclamation of peace is necessary. He knows all about the law in the case. The question was referred to the department of justice as a way out—it was hoped that the responsibility for the issuance of the proclamation could be placed on the department of justice and make it a domestic legal affair and not an infringement of the handling of foreign policy by the secretary of state.

In No Hurry. But something has happened. Even the department of justice has taken its time, and the general inference is that the president has told the department it needn't hurry the decision. Meanwhile the department of state is hopeful of an early conclusion of its negotiations with Germany, and once an agreement with the Berlin government is reached it will be easier to take the position that the peace proclamation might as well be held up until after the separate peace treaty with Germany is signed by both parties.

## Council Again Defers Action on Mole Tract

Purchase of the Mole property, south of Riverside park—favorite picnic grounds—was put over until the city purchasing committee has had time to look over the park site with the view of contracting through the city planning commission.

The resolution offered by Alderman A. J. Gibbons, allowing the planning commission to contract for the purchase of the land at a price not to exceed \$150,000, was read before the meeting Monday night.

"How many know this property?" asked Alderman J. J. Dillin. Only four of the council answered in the affirmative. It was agreed that the committee members would inspect the site next Wednesday morning.

"That price appears to be reasonable for river front lots," said Mayor Welsh. None of the council objected to the purchase apparently. They only wish to have time to make a more complete investigation.

The sum of \$100 was ordered paid for the holding of bond concerts during the meeting of the council.

## HARDINGS RETURN AFTER VACATION

Washington—President and Mrs. Harding returned to Washington Tuesday morning, after an absence of 21 days, most of which was spent on vacation in the White Mountains of New Hampshire. The yacht Mayflower came up the Potomac ahead of schedule and docked at 9:30 a. m.

## VOICE OF THE PEOPLE

Editor Gazette:

Officers of the Janesville Moose lodge have made a careful investigation of the accusations made in your paper regarding the carnival put on here by their organization. They have made no effort to publicly deny those accusations until they were sure they were not well founded. The statement was made in your newspaper that the carnival was "going at full blast at 2 a. m." Sunday morning; that women in some of the shows appeared in public in a nude or semi-nude condition. Efforts have been made by the officers of the lodge to find a single person who saw any such exhibitions. To date these efforts have been unavailing.

The men who moved the carnival company Sunday night and Sunday morning declare that not a tent or a ride was standing at 2 o'clock that night of the carnival people except the overalls or laborers were on the grounds; that the women of the company took a motor-bus for their train at 11:30 o'clock, and that it would have been impossible for the carnival to be going at full blast at that time. This statement is also borne out by the officers of the lodge, who checked up with the secretary of the show, and did not leave the grounds until 1:30 o'clock. A city policeman was with the show until that time, and with them and the money in their possession to the city. The contractor for the hauling job is a deputy sheriff. He will verify the statement that there was nothing going on except the moving after 11:30 o'clock.

This should be sufficient to convince the fair-minded that someone either deliberately or carelessly made a false statement.

As to the so-called vulgar show, the officers and members of this lodge watched all shows, concessions and rides every night to keep the carnival clean and free from disgraceful features. Some 25 men of this city, all reputable, endeavored to make the show a success. They were striving to raise funds to help fundless children to get an education at Mooseheart, so that they may in later years come out into the world, not wards of an orphan asylum with no hope for the future, but as useful men and women who will be the future foundation of our civilization and society.

The officers of the lodge were in constant touch with Chief Newman, co-operating at every step to give the public a good, clean entertainment. Chief Newman and Mayor Welsh declared they saw no objectionable features.

"Why the Moose lodge was sniped out as the victim for these unfair attacks by the press and a small group of 'reformers' is not difficult to understand. The local Moose lodge is not as strong as some of the other fraternal organizations. Its membership is chiefly composed of men who have to work hard for their living. The membership is not as large as some of the others. However, their reputation for decency, uprightness and high ideals cannot be questioned. Other organizations have held their entertainments in the city and have allowed their games of chance to run openly. Yet Rev. Lewis and a small group of others who made such a 'raucous' over the recent carnival put on by the Moose had not a word to say. Why were they silent? Were they fearful of the influence of some of those in these organizations? Did they see a chance to attack an organization which they thought had no influence? Did they see a chance to force themselves in the spotlight of publicity and could not resist the temptation to take a chance?"

It looks that way to the members of the Moose lodge. Not a word is said when a dance is put on a local stage that is equally as suggestive as those given at the carnival. They do not think it is out of the way for 32 friends and acquaintances to pay 32 cents to see a show as suggestive as those given at the carnival. ## LAWYER SAYS RED REGIME IS HORROR

Prison and Starvation Lot of  
Attorney and Wife in  
Russia.

[BY ASSOCIATED PRESS.]

Copenhagen—Wladimir Chessin, formerly consulting lawyer to the Danish and Swedish legations in Petrograd, with his wife, an ex-singer of the Imperial opera in Petrograd, recently arrived here after a perilous flight from Russia.

Their last memory about Russia is a rifle shot sent after them while crossing the frontier. Chessin, in the course of an interview, said: "Lenin's regime is a rule of terror. This is proved by the fact that since 1918, I have spent practically all my time in prison in a filthy cell and but for my wife smuggling food into my prison I would have starved to death. One hundred of my 125 fellow prisoners died from starvation. Russia today is a hell; that's the truth about Lenin's Russia. The population of the towns are being out and houses are demolished by the thousands in order to obtain house timber as fuel."

Hundreds of reputable and prominent people came to the officers of this lodge and voluntarily complimented the committee on the cleanliness of the show as well as the splendid entertainment features. Thousands of people witnessed the carnival and with the exception of a few men and women, who seized the opportunity to attack, nothing but praise was heard. The men and women of the Moose are doing a real human job. They are doing it thoroughly and tirelessly. They do not preach one doctrine and live another. They should not be subjected to the suspicion that has been cast upon them by the "reformers" and over-zealous reporters.

We believe the mass of people of Janesville are with us in this affair and recent the unjust criticism that has been made. If they do, the Moose lodge does not care whether Rev. Lewis and his followers attack it or not. This is perhaps a lengthy letter, but we feel inasmuch as so many columns have been devoted to criticism of our order, we are entitled to the space necessary to make reply.

Mr. Editor, we heartily thank you for this chance to tell the truth about the carnival.

## HER ENDURANCE AMAZES FRIENDS

Mrs. W. E. Stone in her mountain climbing garb.

The endurance of Mrs. W. E. Stone, widow of Purdue University's president who lost his life while trying to help her escape from a deep crevasse in the Canadian Rockies into which she had fallen, has amazed her friends. For eight days she lay, without food or drink, within a crevasse on the side of Mount Canon, near Banff, Canada.

## PAVING PLANS WIN AFTER HARD FIGHT

Original Program, With Ringold Street, Ordered In Despite Stumbling Blocks.

There was a paving battle before the council meeting in the city hall on Monday night, with Ringold street properly owners split on the original order of the city to pave with concrete. The arguments during the recess conference were both quick and intense with the council in a mood to do what was desired by the majority.

All said the issue was decided on a petition. One petition called for the revoking of the paving order and the other for its enforcement. After careful consideration of the property footage of those signing the petitions, it was announced that those desiring the pavement won by 70 feet.

Paving Is Ordered. Acting on this announcement the council passed a resolution to lay the petitions on the table and go ahead with the concrete paving program already passed on Ringold from Racine to Ruger avenue, on Hickory, one block on Glen and in the Blackhawk addition.

The paving had a rocky passage for the mayor and others, were doubtful if the city had sufficient funds to proceed. Had the anti-paving petition carried the majority of property footage it would have been rejected without a question.

Property Owners Attend. More than 200 people were packed into the council room. At times they were rather amused at the proceedings, but serious over the paving program. As soon as it was decided most of the property owners left, apparently satisfied.

In connection with the city's paving program there were communications in for the laying of gas mains and laterals. The Gas company, through I. P. Wortendyke, advised the council that "the company can proceed no further with the mains and laterals or other work until some solution of our financial difficulty can be found."

A committee composed of Aldermen J. K. Jensen, C. J. Smith, L. J. Cronin, W. W. Menzies, and City Engineer C. V. Kerch was ordered to determine how much pipe would be needed for the gas mains and "act at once."

Delay Track Repairs. Further delays were desired by the Rockford Interurban and Janesville Traction companies for making repairs ordered on the tracks and streets. The letters of W. H. Dougherty, counsel for the traction lines, were read by City Clerk E. J. Sartell.

"I am willing for reasonable delays when we know that they will do the improvements," said Alderman J. K. Jensen.

During the consideration of the paving, gas main and traction company issue, the city council expressed impatience with delays. "I believe it just a stall when the

gas company claims it cannot pay for mains," declared Alderman J. J. Dillin. "If everyone is paying as much for gas as I am, they have money, and it is poor gas at that. I believe the people are being held up."

The matter of delays to both the traction company and gas company were laid over until conferences can be held between council committees with officials of both companies.
